PROJECTS

Track2311 Investments – Full-Stack Agricultural Investment Platform

- Built a production-ready full-stack web application for a Liberian agricultural investment firm.
- Features include user authentication (email/password + Google OAuth), AI-powered chatbot, job application system, contact form, and fully responsive design using React, Tailwind CSS, Node.js, Express, and MongoDB.
- Deployed frontend on Vercel and backend with MongoDB on VPS using Dokploy.
